Response Wirefree 433MHz PIR Detector (SAP)

The Response SAP is a completely wirefree Passive Infra Red (PIR) detector that can be easily added to your existing response alarm system in minutes. PIR's are ideal for protecting whole areas, rooms or outbuildings and send a signal to activate the response alarm when an intruder is detected in the protected area.

The Passive Infra Red (PIR) detects changes in infra red heat when an intruder walks into the detection area. A security coded signal is automatically sent, which activates the response alarm in an instant.

All detectors are individually coded at the time of installation with your selected security code and no wiring is required.

FEATURES:
• 12 metres at 110 ° detection range
• Walk test for ease of set up
• Adjustable Wall Bracket
• Low battery indication
• Tamper protection
• Completely Wirefree

IDEAL FOR:
Protecting any type of Room, Outbuilding or whole areas
