#### Response Wirefree 433MHz Magnetic Contact Detector (SAM)

The Response SAM is a completely wirefree Magnetic Contact Detector that can be easily added to your existing Response Alarm System in minutes. Magnetic Contacts are ideal for protecting, doors, windows and patio doors (in fact, any opening device, drawer or cupboard for example) and send an instant signal to activate the Response Alarm in the event of a break-in. Ideal for use in situations not suited to the installation of a PIR detector - where animals are present for example.

This completely wirefree Magnetic Contact detects when a door or window is opened in a protected area. A security coded signal is automatically sent to the Response Alarm

#### FEATURES:

- LED Confirmation Light
- Low battery indication
- Door or Window Mount
- Tamper protection
- Completely Wirefree

#### IDEAL FOR:

Use on any type of Window, Door and Patio Door

شارع امحمد افكينني - طرابلس - ليبيا
