## Response Wirefree Solar Siren 433MHz (SASSYB)

The Response Solar Siren and Strobe (SASSYB) is completely wirefree that can be added to your response alarms system to double the visual and audible protection. It incorporates the very latest high powered siren and strobe to attract immediate attention to an response alarm activation. Your additional Siren & Strobe will operate whenever your main Siren is activated and will give an audible and visual confirmation each time the keypad or remote is used.

The Solar Siren is powered by a high capacity sealed lead acid, rechargeable, battery which ensures the Siren & Strobe is powered during the night. The Solar panel is only used to maintain the change to the rechargeable battery during daylight hours - even on overcast winter days.

All additional Siren & Strobes are individually coded at the time of installation with your selected security code and no wiring is required.

## FEATURES:

- No Wiring Required
- Added Protection with double the Visual & Audible deterrent
- Automatically operates at the same time as your main Siren and Strobe
- Protect the back as well as the front of your property.
- Can be mounted on outhouses or garages.
- Anti Tamper Protection

## IDEAL FOR:

Increasing your Security to protect out buildings or the rear of your property. For larger properties to protect your home
